Other Comments and suggestions

very worthwhile, encouraging and helpfull - an excellent week - a really valuable training - course met far my expectations - this course served very well to provide a realistic potentially powerful point of departure towards creating an inclusive school - a straight organisation - cut lenght of breaks down and leave course content as it is - it was a very inspiring week altogether - the course materials will be of use in a variety of ways - I enjoyed the week and consider myself very lucky to have had the opportunity to meet so many great people - it has been a super week - I cannot recall a training session which was so stimulating and the format of which was so conducive to making connections between the working/organisation context and the problems which need to be, and can be addressed from within the school - from a participant's point of view all the labour was very much worth the pain - thank you for putting this together for us and arranging the visits and activities which all contributed so much to the success of the trip - congratulations to you and all the members of the working group.
